OCTOBER 2022 ISSUE 3

B-IWA WAVES

GLIMPSES OF THE PREVIOUS ACADEMIA MEETS INDUSTRY EVENT!

The previous AMI event held on April 27, 2022 at 'Living Tomorrow', Vilvoorde was a highly successful event with participants from different research institutes/universities and companies. The event was divided into two parts: ***'Water in the future'*** and ***'Academia meets Industry'.*** The first part opened with a ***'welcome word'*** and presentations about ***'Water in the future'*** and ***'vision of water in Europe after 2030'.*** The second part began with a welcome word from watercircle.be and our B-IWA president Prof. Ilse Smets, followed by presentations and an award ceremony (WIRA's) - read further to know the winners! The event ended with a networking event 'Speed date' and a reception. More information here.

B-IWA AT FARYS OSTEND!

B-IWA members had the pleasure of visiting the drinking water production unit of Farys, in Ostend. Fruitful discussions over recent drought, energy challenges and ways to overcome them using available technologies were conducted. A few pictures of the tour below..

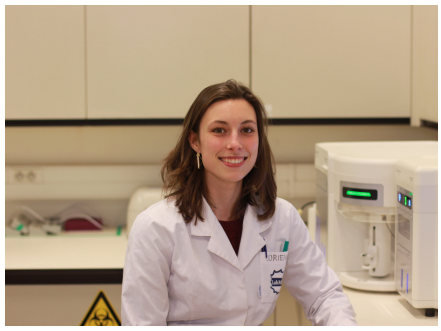
WATER INDUSTRY AND RESEARCH AWARDS

Every year, 3 different awards are given away to deserving candidates for best - ***Water research***, ***Development collaboration*** and ***Career achievement.*** We asked a couple of questions, to each of the winners which can be found here. In 2021, these were awarded to -

GREET DE GUELDRE

Career achievement award

For her long lasting efforts in the Belgian water sector



JORIEN FAVERE

Best Research Award

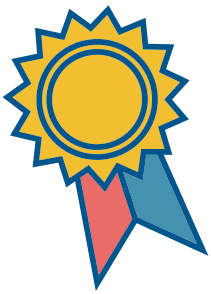
"Online monitoring of microbial drinking water quality in a full scale water tower, with flow cytometry"

JEAN LUC-VASEL

PHAM HUNG VIET

Best Research Development Collaboration award

'Belgian-Vietnamese research collaboration'



CONGRATULATIONS TO ALL THE WINNERS!
